Month # - As Needed Minimally-Invasive Non-Surgical Restorative Techniques to include D2940 Intermediate Restorative Sedative Filling Material (IRM) per tooth surface.

D9630 Oral Infection Control Products – These products are prescribed by the dentist for the dental hygienist to apply and distribute according to the individual needs of the resident. Examples of these products may include MI Paste (Recaldent), Fluoride Varnish, Antimicrobial rinse (Peridex) and various Xylitol Products.

D9630 Oral Hygiene Home Care Products – For daily use the resident will receive one battery operated toothbrush every six months. In addition a manual toothbrush, toothpaste, mouthwash, Xylitol mints and denture products where applicable, are replenished monthly as needed.
